Act Fairly-An Important Ap-

Marion Balue yesterday brought suit an accounting. Rafferty and he held options on valuable mining claims in New Mexico. He avers that Rafferty and Parker solicited him to join with them in forming a mining company, and a partnership was formed. According to the statement of Balue a contract was signed terest in the mining company and he was to be paid \$500, and the company should lease the mines and equally share the

profits of operating them. Upon this contract the plaintiff avers that he and the defendants went to New Mexico and secured from Cook a new optien on the mines for a lease, with the privilege of purchasing under the name of the "Mayne Parker Mining and Smelling Company," the name of the unincorporated company. He asserts that Parker then secured possession of the mines, with right to occupy and operate for two years, by paying Cook 20 per cent. royalty on all the ore mined and \$500 additional. It is also said the agreement was that the company hould construct a tunnel 800 feet long in the mines, and, if it saw fit, to purchase the mines outright for \$25,000.

The plaintiff alleges that before the company was incorporated the defendants went New Mexico and incorporated a company known as the "Hop Canyon Mining and Smelting Company," with a capitalizan of \$1,000,000, and induced Cook to reseind his contract with the plaintiff and the defendants and make another contract with he new company. Balue alleges that the defendants were successful in carrying out their plan without regard to him, and now refuse to turn over one-third of the capital stock, as was agreed in the organization of the former company. He asks the court to give him a one-third interest in the new company and the \$500 which he says was in the agreement and has not
